

APRIL 2010

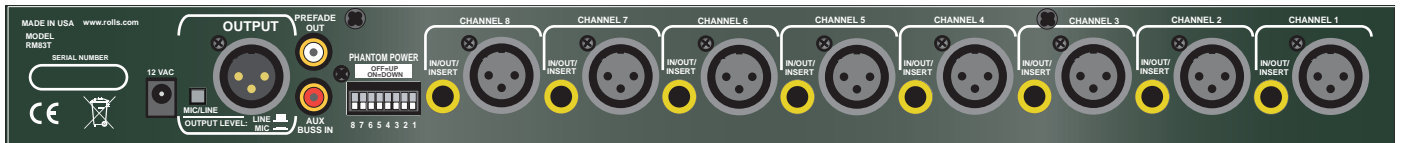

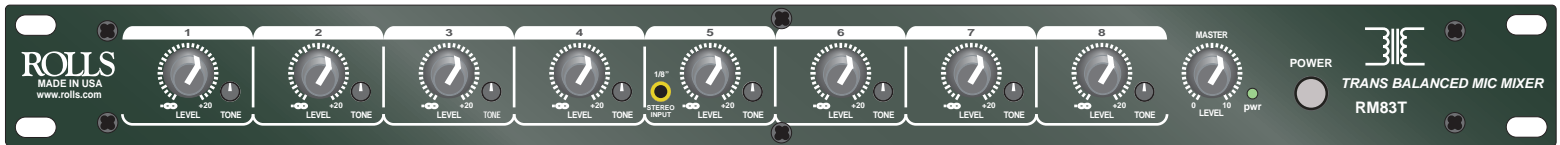

NOTICE:

The Rolls discount structure is being changed. The new discount structure will be based on yearly sales rather than order quantity. Information about the new change will be coming. Call for more info.

NEW PRODUCTS!!

NEW RM83T

We are updating the MX34b. It will now be called the MX34c. We have added a mic/line switch to the output section to give the unit greater capability and help get it spec'd into even more installations. The sales of the MX34 are up 300% in 2010.

The RM83T is an 8 channel transformer balanced mic mixer. It features a transformer balanced input for each of the 8 inputs. Switchable 48 Volt phantom power on each of the eight inputs. Switchable mic or line level balanced XLR output. An 1/8" stereo line level input on the front panel for channel 5. The RM83T runs on an external 12 VAC power supply to keep the unit as quiet as possible from AC hum interference. Made in USA in a steel single rack space chassis with an aluminium anodized front panel. The RM83T will be available June 2010.

NEW MA254 AVAILABLE MAY/JUNE 2010

The new MA254 is a compact class D stereo amplifier with a 4 CH. stereo mixer built in. It has 5 watts per channel @ 4 Ohms. The class D low heat design gives the MA254 the ability to be mounted in very tight applications. It will work great in ceilings by projectors, or anywhere small and heat free amplification is required. The MA254 is built in an all metal chassis and weighs 1 pound. Overall dimension are 6.75" X 3.5" X 1.5". Bottom mounts are provided for permanent installations. The MA254 has an included 12 VAC external power supply. The 4 channel mixer section consists of 4 separate RCA stereo inputs, along with a 3.5mm (1/8") stereo input perfect for an ipod or laptop computer type input.

NEW MX310

AVAILABLE JUNE 2010

The MX310 is a new 3 channel mono mic mixer. It will have individual switchable phantom power for each input. A headphone output for monitoring. Each channel will have an independent level control and switchable low cut filter. A mic/line output switch will give the output XLR jack flexibility for plugging into almost any application. All in a compact all metal chassis for years of durable use. MADE IN USA.
